Services and pricing guide

Websites

A fast, clear website that explains what you do and brings in enquiries.

Build · One time

Launch, Business or Signature

Build from ₹35,000 (one time)

Launch from ₹35,000, Business from ₹40,000, Signature from ₹60,000. The site files are yours after final payment.

Optional · After launch

Care plan

Optional care from ₹3,000/month

Hosting, backups and one small edit a month. No minimum.

At a glance

Build (one time)	from ₹35,000 (Launch), from ₹40,000 (Business), from ₹60,000 (Signature)
Care plan (optional)	Base care from ₹3,000/month, Plus care ₹5,000/month; no minimum
The site files	yours after final payment
Typical timeline	1–5 weeks, from the day you've sent your data and approvals
GST	18%, added to every invoice
Payment	build in two parts (50% to start, 50% before launch); care plan invoiced monthly; UPI accepted

All prices are "from" prices, exclude GST (18%) and are not quotes. Your own figures are agreed after scope.

Your website is often the first thing a customer checks before they call. I build fast, clear sites that work well on a phone, explain what you do in plain words and send every enquiry straight to your WhatsApp or inbox. The site files are yours after final payment, and an optional care plan keeps it hosted and up to date.

What you get

Who it is for

- New businesses that need to look credible online
- Shops, studios and service businesses that get most enquiries on WhatsApp
- Growing companies whose current site is slow, outdated or hard to update
- Brands that want a site that stands out

Three packages

Package	Launch	Business	Signature
Build from	₹35,000	₹40,000	₹60,000
Best for	Landing pages, new businesses, personal brands	Growing businesses that need a proper online presence	Brands that want to stand out
Pages	1–5	Up to about 10	Fully custom
Design	Mobile-first	Custom design	Fully custom, with scroll-driven motion and 3D where it fits
Enquiries	Contact form and WhatsApp button	Lead capture into WhatsApp or your CRM	CRM integration, plus visitor tracking and a lead dashboard
Edit it yourself (CMS)	No; small edits through the care plan	Yes	Yes
Analytics	–	Yes	Visitor tracking and a lead dashboard built in
Search (SEO)	SEO basics	SEO basics	Advanced SEO and speed tuning
AI answer tools (GEO)	–	Basic GEO	Basic GEO
Payments and booking	–	–	Yes
Hindi and English	–	–	Yes
Hosting	Set up for you	Set up for you	Set up for you

Every site includes

- ✓ **Designed for phones first.** Most of your visitors are on a phone, so every site is designed for phones first, then checked on tablets and desktops.
- ✓ **SEO basics.** Fast loading, clear page titles and descriptions, and a sitemap so Google can find every page.
- ✓ **Enquiries that reach you.** Every enquiry goes straight to your WhatsApp or inbox.
- ✓ **Yours to keep.** The site files are yours after final payment, and the domain sits in your own account.

Typical uses: business websites, landing pages, marketing sites, portfolios, scroll-driven sites, lead capture to WhatsApp.

Add-on and care plan

Add-on · AI assistant for your site

A chat assistant that answers visitors' questions from your site's own content, such as services, prices, hours and FAQs, at any hour, so the repeated questions you get on WhatsApp are answered without you. Quoted separately; AI usage is billed at cost.

Simple. Answers visitors' questions on your site, from your site's content.
Connected. Everything in Simple, plus it sends enquiries to your WhatsApp, or to the lead dashboard on Signature, and notifies you of what visitors are asking, so you can see which questions your site doesn't answer yet.

AI can make mistakes. The assistant answers from your site's content, but it can occasionally give wrong or made-up answers, so it shows visitors a short notice saying so. I'm not responsible for its answers or for decisions based on them.

After launch: the optional care plan

Both plans are optional, with no minimum. If you cancel mid-month, that month is still billed in full.

What is included	Base care	Plus care
Price	from ₹3,000/month	₹5,000/month
Hosting, backups and uptime monitoring	✓	✓
One small edit a month	✓	✓
Visitor analytics (who visits, which pages they view, what they click)	–	✓
Traffic reports	–	✓

Without a care plan, the site is handed over at launch. Design and content changes after launch are quoted separately, at a day rate of ₹10,000.

Third-party and usage costs (never in the build price)

- ✓ **Domain.** You can buy it yourself and give me access, and I'll guide you if you're not sure how, or I can buy it for you in your business's name at cost. Either way it ends up in your own account.
- ✓ **Payment gateway fees** (Signature, if the site takes payments): charged by the gateway, paid by you.
- ✓ **AI usage** for the AI assistant add-on: billed at cost.
- ✓ **Any other third-party service** the site uses, such as a booking tool or CRM: billed at cost, named in the proposal.

Every third-party service the site uses is named in the proposal before work starts, with what it is used for and that it is billed at cost. A new one added later counts as a change and is quoted.

Pricing in detail

All prices are "from" prices and exclude GST (18%).

What moves the price

Number of pages, custom design, forms and integrations. Launch from ₹35,000, Business from ₹40,000, Signature from ₹60,000.

How the build is paid

The build is paid in two parts: 50% to start, when you approve the proposal, and 50% before launch. The site goes live after the final payment, and the files are yours from then.

Package	To start (50%)	Before launch (50%)	GST on the build (18%)	Build including GST
Launch	₹17,500	₹17,500	₹6,300	₹41,300
Business	₹20,000	₹20,000	₹7,200	₹47,200
Signature	₹30,000	₹30,000	₹10,800	₹70,800

Care plan with GST

Plan	Monthly price	GST	Monthly invoice
Base care	₹3,000	₹540	₹3,540
Plus care	₹5,000	₹900	₹5,900

What the first year costs

The build plus 12 months of care, if you choose a care plan. GST is added to each invoice.

Package	Build only	Build + Base care for 12 months	Build + Plus care for 12 months
Launch	₹35,000 (₹41,300 with GST)	₹71,000 (₹83,780 with GST)	₹95,000 (₹1,12,100 with GST)
Business	₹40,000 (₹47,200 with GST)	₹76,000 (₹89,680 with GST)	₹1,00,000 (₹1,18,000 with GST)
Signature	₹60,000 (₹70,800 with GST)	₹96,000 (₹1,13,280 with GST)	₹1,20,000 (₹1,41,600 with GST)

Changes after launch

On a care plan, one small edit a month is included. Anything bigger, or any change without a care plan, is quoted before work starts at a day rate of ₹10,000. Illustration only: a change that takes half a day would be quoted at ₹5,000, plus GST.

Examples

These are illustrations, not client case studies and not results. Packages are examples; your quote follows scope.

Example 1: A landing page for a new clinic

The situation. A new clinic gets most of its patients through word of mouth and WhatsApp, and has nothing to show people who search for it.

What I would build.

- ✓ Launch: a 3-page site (home, services and timings, contact) that works well on a phone.
- ✓ A contact form and WhatsApp button, so every enquiry reaches the clinic's phone, plus SEO basics and hosting set up.

Build	₹35,000 (one time): ₹17,500 to start, ₹17,500 before launch
Care plan	Base care, ₹3,000/month (optional)
First year	₹71,000 with Base care, before GST (₹83,780 including GST)

Example 2: A proper website for a growing manufacturer

The situation. A manufacturer's old site is slow, hard to update and doesn't list its current products, so buyers call to ask for basic details.

What I would build.

- ✓ Business: about 8 pages with custom design, including a product range page the team updates through the CMS.
- ✓ Lead capture into WhatsApp, analytics, SEO basics and basic GEO.

Build	₹40,000 (one time): ₹20,000 to start, ₹20,000 before launch
Care plan	Plus care, ₹5,000/month (optional), for visitor analytics and traffic reports
First year	₹1,00,000 with Plus care, before GST (₹1,18,000 including GST)

Example 3: A signature site for a brand that takes bookings

The situation. A studio wants a site that feels as good as its work, takes bookings and payments online, and serves customers in Hindi and English.

What I would build.

- ✓ Signature: a fully custom site with scroll-driven motion, booking and payments, in Hindi and English.
- ✓ Visitor tracking and a lead dashboard, so every enquiry is logged and followed up, plus advanced SEO, basic GEO and speed tuning.

Build	₹60,000 (one time): ₹30,000 to start, ₹30,000 before launch
Care plan	Plus care, ₹5,000/month (optional)
First year	₹1,20,000 with Plus care, before GST (₹1,41,600 including GST)
Not included	Payment gateway fees, paid by the business

How a project runs

01 **Fill out the form, then a free call or Google Meet.** I reply within 48 hours by email or WhatsApp, and on a free call we go through what the site needs to do, your budget and when you'd like it live.

02 **A written proposal in 2–3 days.** Within 2–3 days you get the package, price and timeline in writing, free and with no obligation, valid for 21 days. Approve it and pay 50% to start.

03 **Build, with a live preview.** I start building straight away and share a live preview for you to review. Changes within the agreed package are included.

04 **Final payment, then launch.** Pay the remaining 50% before launch; then the site goes live and the files are yours, with the domain in your own account.

05 **After launch, an optional care plan.** An optional care plan with no minimum covers small edits after launch; the higher plan adds analytics and traffic reports.

Typical timeline: 1–5 weeks, counted from the day you've sent your data and approvals. Your proposal says exactly. I'll sign an NDA before we talk if you want one.

What I need from you

- ✓ Your text and photos for each page. If you don't have them yet, tell me on the call and we'll agree in the proposal how to handle them.
- ✓ Your brand assets (logo, colours), if you have them.
- ✓ Access to your domain, or a go-ahead for me to buy it in your business's name.
- ✓ One person who approves the preview and the launch.

Terms in short

A plain-English summary of how we work together, not a contract.

- ✓ The build is paid in two parts: 50% to start, 50% before launch.
- ✓ The site files are handed over after final payment. Your domain and accounts are always in your name.
- ✓ Care plans are optional and have no minimum. A month that is cancelled part-way is billed in full.
- ✓ Changes within the agreed package are included during the build. Design and content changes after launch are quoted, unless covered by the care plan's one small edit a month.
- ✓ If a care plan invoice is more than 15 days overdue, I give 7 days' written notice and then pause the service.
- ✓ These terms are governed by Indian law; disputes are subject to the courts at Raipur, Chhattisgarh.

Questions clients ask

Will the website work well on phones?

Yes. Every site is designed for phones first, since that's where most of your visitors are, then checked on tablets and desktops.

Can I update the content myself?

On the Business and Signature packages, yes: you get a simple editor (a CMS) for text, images and pages. On Launch, small edits are covered by the optional care plan.

Will people find my site on Google?

Every site gets the SEO basics: fast loading, clear page titles and descriptions, and a sitemap so Google can find every page. Business and Signature also get basic GEO (generative engine optimisation): structured data and clearly written pages, so AI answer tools such as ChatGPT and Google's AI Overviews can understand your business and mention it. Signature adds advanced SEO and speed tuning. Rankings and mentions depend on your market, so I don't promise positions.

Do I own the website?

Yes. The site files are yours after final payment. For the domain, you can buy it yourself and give me access, and I'll guide you if you're not sure how, or I can buy it for you in your business's name at cost. Either way it ends up in your own account, so you always control it.

Do I need a care plan?

No. Both care plans are optional and have no minimum. Base care keeps the site hosted, backed up and monitored, with one small edit a month. Plus care adds visitor analytics and traffic reports. If you cancel mid-month, that month is still billed in full.

How long does it take?

Typically 1–5 weeks, counted from the day you've sent your text, photos and approvals. Your proposal says exactly.

Can visitors message me on WhatsApp from the site?

Yes. Every package sends enquiries to your WhatsApp or inbox. Launch has a contact form and a WhatsApp button; Business captures leads into WhatsApp or your CRM; Signature adds a lead dashboard so you can see which enquiries have been followed up.

Are there other costs?

GST at 18% is added to all prices. The domain is at cost, and payment gateway fees, AI usage and any other third-party service are billed at cost. Every service your site uses is listed in the proposal before work starts, so nothing new appears later without your approval.

How do payments work?

The build is paid in two parts: 50% to start and 50% before launch. The care plan, if you choose one, is invoiced each month. UPI is accepted.

Thank you

Tell me what your website needs to do.

Reply to sohamkar.work@gmail.com with a time that suits you, or fill out the form on my website. I reply by email or WhatsApp within 48 hours, and your written proposal comes after a free call.

I'll sign an NDA before we talk if you want one.
